

# The Victory 37 Tugboat

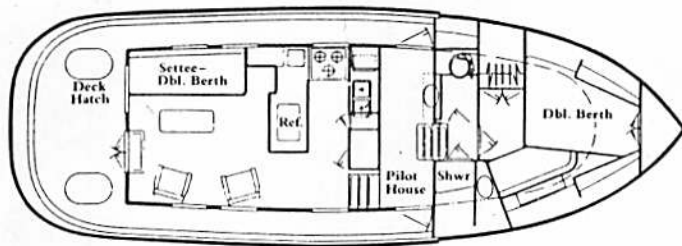

BUILT BY: LORD NELSON YACHTS

A SERIOUS TUG WITH THE APPOINTMENTS OF A FINE PLEASURE YACHT

Designed by James Backus/Admiralty Design Group, the lines of The Victory 37 Tugboat are based on the traditional New England lobsterboat hull, a seakindly shape with a fine entry and a flat run aft for stability and speed. The long keel, which holds 3000 pounds of ballast, produces good tracking, and the oversized, balanced rudder enables the tug to turn surprisingly quickly. It can cruise an honest 1000 miles at nine knots on one tank of fuel.

The interior is airy and roomy, and richly appointed with classic brass fixtures and solid teak. This is no oily workhorse, but a yacht to own with pride. See it now at The Boatworks.

LOA 36'11"  
Beam 13'2"  
Draft 3'6"  
Ballast 3000 lbs. iron  
Displ. 20,585  
Range 1000 miles +
